Health Insurance Portability Accountability Act (HIPAA) Notice of Privacy Practices

This document contains important information about federal law, the Health Insurance Portability and Accountability Act (HIPAA), that provides privacy protections and client rights with regard to the use and disclosure of your Protected Health Information (PHI) used for the purpose of treatment, payment, and health care operations.

HIPAA requires that I provide you with a Notice of Privacy Practices for use and disclosure of PHI for treatment, payment and health care operations. The Notice explains HIPAA and its application to your PHI in greater detail.

The law requires that I obtain your signature acknowledging that I have provided you with this. If you have any questions, it is your right and obligation to ask so I can have a further discussion prior to signing this document. When you sign this document, it will also represent an agreement between us. You may revoke this Agreement in writing at any time. That revocation will be binding unless I have taken action in reliance on it.

LIMITS ON CONFIDENTIALITY

The law protects the privacy of all communication between a client and a therapist. In most situations, I can only release information about your treatment to others if you sign a written authorization form that meets certain legal requirements imposed by HIPAA. There are some situations where I am permitted or required to disclose information without either your consent or authorization. If such a situation arises, I will limit my disclosure to what is necessary. Reasons I may have to release your information without authorization:

- 1. We may disclose your PHI pursuant to a subpoena (with your written consent), court order, administrative order or similar process.
- 2. If a government agency is requesting the information for health oversight activities, within its appropriate legal authority, I may be required to provide it for them.
- 3. I may use or disclose your PHI in a medical emergency situation to medical personnel only in order to prevent serious harm. I will try to provide you a copy of this notice as soon as reasonably practicable after the resolution of the emergency.
- 4. If a client files a complaint or lawsuit against me, I may disclose relevant information regarding that client in order to defend myself.
- 5. We may disclose your PHI if necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public. If information is disclosed to prevent or lessen a serious threat it will be disclosed to a person or persons reasonably able to prevent or lessen the threat, including the target of the threat.
- 6. If a client files a worker's compensation claim, and I am providing necessary treatment related to that claim, I must, upon appropriate request, submit treatment reports to the appropriate parties, including the patient's employer, the insurance carrier or an authorized qualified rehabilitation provider.
- 7. I may disclose the minimum necessary health information to my business associates that perform functions on our behalf or provide us with services if the information is necessary for such functions or services. My business associates sign agreements to protect the privacy of your information and are not allowed to use or disclose any information other than as specified in our contract.
- 8. We may disclose PHI regarding deceased patients as mandated by state law, or to a family member or friend that was involved in your care or payment for care prior to death, based on your prior consent. A release of information regarding deceased patients may be limited to an executor or administrator of a deceased person's estate or the person identified as next-of-kin. PHI of persons that have been deceased for more than fifty (50) years is not protected under HIPAA.
- 9. We may disclose PHI to a law enforcement official as required by law, in compliance with a subpoena (with your written consent), court order, administrative order or similar document, for the purpose of identifying a suspect, material witness or missing person, in connection with the victim of a crime, in connection with a deceased person, in connection with the reporting of a crime in an emergency, or in connection with a crime on the premises.
- 10. Uses and disclosures not specifically permitted by applicable law will be made only with your written authorization, which may be revoked at any time, except to the extent that we have already made a use or

disclosure based upon your authorization. The following uses and disclosures will be made only with your written authorization: (i) most uses and disclosures of psychotherapy notes which are separated from the rest of your medical record; (ii) most uses and disclosures of PHI for marketing purposes, including subsidized treatment communications; (iii) disclosures that constitute a sale of PHI; and (iv) other uses and disclosures not described in this Notice of Privacy Practices.

There are some situations in which I am legally obligated to take actions, which I believe are necessary to attempt to protect others from harm, and I may have to reveal some information about a client's treatment:

- 1. If I know, or have reason to suspect, that a child under 18 has been abused, abandoned, or neglected by a parent, legal custodian, caregiver, or any other person responsible for the child's welfare, the law requires that I file a report with the Tennessee Abuse Hotline. Once such a report is filed, I may be required to provide additional information.
- 2. If I know or have reasonable cause to suspect that a vulnerable adult has been abused, neglected, or exploited, the law requires that I file a report with the Tennessee Hotline. Once such a report is filed, I may be required to provide additional information.
- 3. If I believe that there is a clear and immediate probability of physical harm to the client, to other individuals, or to society, I may be required to disclose information to take protective action, including communicating the information to the potential victim, and/or appropriate family member, and/or the police or to seek hospitalization of the client. This includes threatened harm to self or others.
